Subject: Re: Black Sands Bonds

Leslie: As to S0470081 the site inspection fits with the information that I have. One thing - the access road as shown in the pictures is an existing road and does not require reclamation. It continues on to the north to provide access to the north end of Asphalt Ridge. As to S0470082, lease ML 47279, Brett Gregory missed the mark. The lands encompassed by ML 47279 is further to the north. I know where the site is in the photographs and the photographed disturbance is on private land. There are only 2 drill holes on ML 47279.
